	Lefton Daniel	Z	Zama Mario

PRESENTATION

Vascular diseases represent a large area that includes vascular tumors, vascular malformations some of these framed in the rare diseases's chapter.

After great efforts made in this discipline in recent years by an Italian and international Experts, the journey on the knowledge of these complex congenital pathologies has become easier.

In addition, the difficulty of forming numerous and debated therapeutic journey requires scientific meeting between experts of different specialties in order to stimulate a constructive comparison, evaluate complex cases, define scientific behavior on these pathologies.

A significant role is taking on the research on genetic frameworks, that reveal new therapeutic approach in complex malformations.

SISAV promotes and develops scientific update meetings and stimulates clinical-scientific research, sharing knowledges and techniques that can bring progress in the treatment of vascular tumors and malformations.

SISAV has developed the national guidelines shared by other scientific societies related to these pathologies which have the task of pointing out correct therapeutic path ways.

We thank the Vascular Birthmarks Foundation that supported this scientific initiative and all the American and European specialists that confront themselves on therapeutic path and behaviors in this 2 Roman days.

INTERNATIONAL CONFERENCE ON ANOMALIES VASCULAR

Thursday, June 28, 2018

PROGRAM

- 8:00 AM** **Opening and Welcome Remarks**
M. Waner, F. Stillo, R. Mattassi, L. Rozell-Shannon
- Session 1 - Chairmen :**
- L. Boon, J. C. L. Gutierrez, R. Mattassi and M. Vaghi**
- 8:20 AM** **Uniform Standards : International Outreach**
L. Rozell-Shannon
- 8:40 AM** **Classification of Vascular Anomalies**
M. El Hachem
- 9:00 AM** **Laser parameters and case presentations in pediatric**
R. Geronemus
- 9:20 AM** **Laser dynamics and case presentations in adults**
S. Nelson
- 9:40 AM** **Sequential firing by pulsed dual wavelength 595 and 1064 laser : Case presentation**
V. Baraldini
- 10:00 AM** **Coffee Break**
- Session 2 - Chairmen :**
- M. Waner, G. Arpaia, M. Rollo and F. Causin**
- 10:20 AM** **Imaging differentials in pediatric vascular anomaly cases of head and neck**
D. Lefton
- 10:40 AM** **Treating complex extremity anomalies**
R. Rosen
- 11:00 AM** **Neuro-interventional treatment approach to AV/VM of the head and neck**
S. Tombris
- 11:20 AM** **Brain Anomalies and IR**
C. Gandolfo
- 11:40 AM** **The current role of early surgery in vascular tumors and malformations of the child**
P. Dalmonte
- 12:00 AM** **Lunch**

INTERNATIONAL CONFERENCE ON ANOMALIES VASCULAR

Thursday, June 28, 2018

Session 3 - Chairmen :

R. Geronemus, F. Nessi, M. Zama and G. Lanza

1:00 PM

Cases : Surgical approach to complex lymphatic malformations

M. Waner

1:20 PM

Surgical indication for Hemangiomas before and after propranololo

A. Diociaiuti

1:40 PM

Cases : Surgical approach to complex AVMs of the head and neck

J. Suen

2:00 PM

Cases : Surgical approach to hemangiomas and vascular malformations of the orbit

A. Fay

2:20 PM

Complex venous malformations cases management

F. Stillo

Session 4 - Chairmen :

M. Taurino, J. Suen, F. Guarnieri and E. M. Nicodemi

2:40 PM

Cases : Surgical approach to complex pediatric vascular anomalies - when to initiate

J. C. L. Gutierrez

3:00 PM

Cases : Treating mucosal vascular anomalies

L. Boon

3:20 PM

Cases : Denta issues and vascular anomalies

D. Darrow

3:40 PM

Cases : Facial nerve reanimation for vascular anomalies

Teresa O

4:00 PM

Surgery in vascular anomalies indications, techniques and morpho-functional results

G. Colletti

4:20 PM

Closing Remarks

INTERNATIONAL CONFERENCE ON ANOMALIES VASCULAR

Friday, June 29, 2018

- 8:00 AM** **Opening and Welcome Remarks**
M. Waner, F. Stillo, R. Mattassi, L. Rozell-Shannon
- Session 5 - Chairmen :**
- S. Nelson, M. El Hachem, L. Moneghini, C. Occella and M. Bertelli**
- 8:20 AM** **The genetics of vascular anomalies**
M. Vikkula
- 8:40 AM** **Sturge Weber Syndrome : Diagnosis and Treatment**
A. Comi
- 9:00 AM** **New insight into treatment of PROs syndrome**
M. Macchiaiolo
- 9:20 AM** **Histopathology of vascular anomalies**
M. Mihm
- 8:40 AM** **Psychosocial implications in pediatric and adults**
L. Graff
- 10:00 AM** **Approach to complex and complicated AVM**
R. Mattassi
- 10:20 AM** **Conference series closing remarks**
M. Waner, F. Stillo and R. Mattassi
- 10:30 AM** **Coffee Break**
- 10:45 AM** **Free Clinic and Laser treatment**
- Hemangiomas
- Malformations of the head and neck
- Extremity Lesions and KTS
- PWS/SWS
Clinic Coordinators :
L. Rozell-Shannon and M. Gnarra
- 1.15 PM** **Lunch**

HOSPITALITY AND GENERAL INFORMATIONS

OFFICIAL CONFERENCE OPENING :

28 June at 8:00 AM to Congress Center

Members of Faculty are invited to the Conference and are free of charge for the registration form and hotel accomodation for the night of 27 and 28 June.

VENUE

Hotel Columbus - "Sala Quadri"

Via della Conciliazione, 33

00193 - Roma

Tel. +39 06 68 65 435

ECM

The conference has been accredited to the Agency Age NA.S. it will be assigned 9 credits subordinated to the participation of the whole congress training program.

For the ECM practice, the speaker will have to fill a sheet with 4 questions and respective 3 multiple answer, and send them to :

lucia@cst-ciccarelli.it

ORGANIZING SECRETARY

S.S.A. S.R.L.

Via Cremona, 41

00161 - Roma
